Copernicus: NO BORDERLINE—Nevermore, Inc.
P.O. Box 170150, Brooklyn, NY 11217. CD Fifth
album from performance artist/musician/poet
Copernicus. I haven't heard the first four, but after
this **NO BORDERLINE** I have developed an
insatiable craving for more. The Copernican creed
"Nothing Exists!" is based on the theory that every-
thing above the atomic level (including the atom itself)
is changing so rapidly that nothing can really exist. It's
the renaissance theme of mutability taken to the
absolute extreme. For me this is an intoxicating mix of
post-Kierkegaardian punkzine existentialism & Kero-
wackyan Zen. I love it. I can dance to it. I can chant &
eat fish to it. I can PTA-mom-ishly erase Beavis & Butt-
head to Copernicus's "There Was No" lyrics of "Fire!
Fire! Fire!" and still roll over and android-dream of
electric sheep. —ssn
