## COPERNICUS

### ■ No Borderline

(Nevermore) The bad news from Copernicus: You don't exist! The good news is you can't die either! Intelligent metaphysical lyrics combined with varied styles of music, ranging from Euro-cabaret and early David Bowie to *Eraserhead* soundtrack experimental, make Copernicus's fifth album/philosophical odyssey a four star (apologies to the Polish astronomer) affair. This modern-day Copernicus musically navigates in another galaxy. **ROB HAMBRECHT**
