Hello, good folks of MoonJune!

Here's the latest bit of radioplay info -- one epic piece from Copernicus's Disappearance CD, "The Blind Zombies", went on the air in the two-hour music show, Fantaasia, that I did on Estonian Radio's Klassikaraadio channel last night (5 August).

The full playlist of the show's below: the Copernicus track is listed as 16th.

Thank you for the music!
