>> This Week

Saturday, February 26th, 2011

Join the gagliarchives, at 10PM Eastern Time Saturday night, for program 1202 as we feature new music from our new #1 CD in requests from Italian band Pandora and the Sempre E Ovunque Oltre Il Sogno CD. We'll also track the latest Soft Machine reissue titled Alive And Well. We'll also track new music from guitarist Jake Hertzog and the Patterns CD as he makes his way to the Miles Cafe in New York City this week. We'll continue on with our spotlight on the recent Steve Morse reissues in Coast To Coast from 1992. We'll also premiere the new Copernicus CD

titled Cipher and Decipher, and the new live Asia album titled Spirit Of The Night: The Phoenix Tour Live In Cambridge 2009. Our 4th Hour Space out will feature the new reissues of Out Of Focus and the releases Wake Up! and Four Letter Monday Afternoon. Lots of birthday salutes and more treats from the vaults.
